

Research Paper Outline Helper

I. Title and Introductory Paragraph:

The Flight of Flight

The last time you took off in a plane, did you take for granted the toil, tools and years that went into creating that experience for you, or did your mind wander to ponderings about the advent of aviation? Perhaps you are now intrigued about the taking off and landing of the field of flight. There have been many technological advances in aviation since its departing to its current taxiing on the technological runway.

Your title and intro here: _____

II. Topic Sentence for the Section Regarding Sub Question #1:

The first airplane was built in 1899 by the Wright Brothers and had no engine; instead it relied upon a wind-warping technology that was modeled after the wing motion of birds.
