

The Square and Square Root Song

by Andrea Kittelson

September, 2007

Should be sung to Shant Anjunyan's beat-boxing.

The square of 2 is 4.

The square of 4's 16.

The square of 16 is 256,
which is right in between...

the square of 15 and 17 --

the latter being 289.

I love to make my numbers square

It makes me feel real fine.

On the flip side of squaring
is finding the square root.

The square root of 49
is the size of my new boots.

The square root of 144
is the inches in a ruler...

Knowing how to find square roots
makes me so much cooler!
