Pensive Parting

Glendale, CA At Roosevelt Middle School students are busily bringing to a close another year of school. They are taking final exams, turning in research reports, returning textbooks, having good-bye parties and preparing for a summer rich in activity and a new school year full of hope.

In this final issue of *The YellowZone* you will read about some of these end-of-the-year endeavors, you will ponder some personal reflections and you will experience the world through the observations of some very astute Yellowstone students.

As this is our final issue, we would like to thank you for your readership. We hope you have enjoyed perusing student works over the past few months, and we hope you have a glorious and fortunate summer and subsequent school year.

Astute Advice

Heading off to summer school? Or simply thinking about the school year ahead? In either case, read and heed some student advice.

Sipan Tsaturyan: If you want to get good grades, you need to do all your homework and study hard. For example, take notes, read lots of books, and make and study flashcards.

Adrine Tahmasyan: If you want to get A's in school you have to try hard to get them. Some people think that if they just do their homework they will get good grades. But, no, you have to do more. You have to keep a notebook and take notes and make flashcards and turn in your papers on time and do what the teachers say and like. That's the way to get A's.

Rave Reviews

Yellowstone students often go to movies, dances and plays. Here is what a couple of Yellowstone students said about their latest cinematic and theatrical experiences.

Cars by Manan Avedyan

If you like movies you should go see *Cars*. I know some of you might think it's stupid like I did at first. But trust me. After you see it, you'll love it. It is very interesting because it's about friendship. It shows how your friends have got your back.

I know it seems kind of weird – cars with personalities. I mean who would think that cars have personalities? But it was good. It felt real. When I got out of the movie I felt like the cars were talking to me.

I don't want to tell you the story because I want you to go see it for yourself. I'm sure you'll like it as I did.

Thrilling! by Maria Manukyan

The teacher talent show on May 19th was fantastic. The teachers put all their hard work into a show to demonstrate how talented they are. The teacher talent show required lots of hard work and cooperation. Many of the teachers' acts were really hilarious. The show included: *American Idol*, songs by Ms. Kittelson, Michael Jackson's *Thriller* and more. I especially liked Michael Jackson's *Thriller* because the teachers came out in zombie costumes and made the students scream. The students were scared at first, which is why they screamed. Then the teachers danced and ended the show. It was great.

Awesome by Meline Vahanyan

The teacher talent show was awesome. Our teachers are really smart. They can teach *and* they can act. My favorite part of the show was the *American Idol* skit. I liked it because I like fashion. Also, I liked that it was funny. In addition to *American Idol* there was zombie dancing and Mr. Brown playing guitar. The whole thing was funny, awesome and amazing. I hope that other people enjoyed it and that those who didn't come can come next time.

Science Snippets

Yellowstone students have a variety of interests. Some like the arts and others dig the sciences. This is what two emerging scientists have discovered.
